Product ALERT Details:

PAN9026 Series – US / Canada Version

Part Number: ENW-F9201A1EF

Wi-Fi/Bluetooth Radio Module IEEE 802.11 a/b/g/n
BT/BLE 5.0 With A Ceramic Chip-Antenna

The US/Canada Version is restricted to FCC regulatory domain with blocked country code and Tx power table. The device does not support the channels 12-13 in the 2.4 GHz band and any non-US channels.

PAN9026 Series – EU Version

Part Number: ENW-F9202A1EF

Wi-Fi/Bluetooth radio module IEEE 802.11 a/b/g/n
BT/BLE 5.0 With A Ceramic Chip-Antenna

The EU Version has preset the country code and Tx power table for European regulatory domain ETSI. The country code and Tx power table are not blocked and additionally the country codes and Tx power tables for Canada and US can be set.

Notes: PAN9026 users cannot change the Tx Power and the Region / Country Code.

In addition, the stored channel tables, depending on the region / country code prevent the use of unauthorized channels (eg channel 12/13 for US), not allowed 5GHz sub-bands (eg Canada channel 120-128) or the activation of TPC, DFS and passive scans.
